

## HOMWORKHELP.COM

The home help team is an online homework guidance team, which can help students who do homework at home to solve problems, analyze problems, and provide solutions

Take a picture to search the question: take a picture of the homework and give the answer in seconds.2. Answer analysis: a variety of ideas, detailed process, so that users can fully grasp a variety of learning problem-solving methods.3. Homework guidance: "blackboard writing + pronunciation" real-time answer, covering Mathematics / Chinese / English / Physics and other disciplines, and enjoying regular learning reports.4. Homework helps one class: all subject courses are selected by users, online teaching and interaction are conducted by teachers. After class, teachers answer questions. If they can't understand them, they can play them back and read them, and they can get credit for prizes.5. Homework to help practice: special exercises, paper selection, synchronous practice, consolidate the knowledge points, wrong questions to help students collect wrong questions. Practice checking and filling up.
